Sir:

Attached in duplicate is Form PTO-1050 with at least one copy being suitable for printing. For reference, the section listing amendments to the specification included in the response to the Office Action mailed on October 31, 2006 is attached.

Support for the correction at column 6, line 15 is found in the amendments to the specification from the response to the Office Action mailed on October 31, 2006. The response to the Office Action at page 3, line 4 reads, "in: the value received from the input register 112" Thus, the patent at column 6, line 15 should read "in:" rather than "n:".

Respectfully submitted
